

EEFIG MEMBERSHIP

EEFIG is an open dialogue and work platform for public and private financial institutions, industry representatives and sector experts to identify the barriers to the long-term financing for energy efficiency and propose policy and market solutions to them. Membership is informal but with expectations that members demonstrate their contribution to furthering the objectives of EEFIG, add value to the workings of EEFIG and have a commitment to strengthening the efforts for the European Union to meet its long-term climate and energy objectives through greater investments in energy efficiency.

APPLICANT:

If you are working in sustainable finance, energy efficiency or energy transition policy, and would like to be a part of a dynamic community of your peers, discussing current and coming investment tools, trends and policies → consider joining us in EEFIG.

BENEFITS OF EEFIG MEMBERSHIP:

- Members are seen as contributing to addressing many of the financing challenges through an EU-wide initiative and as being part of the solution.
- Members are visibly identified on the EEFIG website and can refer their organisations as members of EEFIG on their websites, etc.
- Members help develop analysis, shape messages and recommendations from EEFIG to EU institutions, national governments and the financial community.
- Members are provided with many networking opportunities.

NEXT STEPS:

Applications are always open, but membership is limited in number. If you are interested to join, please send an email, with your CV that includes a brief statement outlining your interest to Carsten Glenting at cag@viegandmaagoe.dk.
